

FOLLOW OUR GOOD NAME!

Welcome to the SCC GmbH team: We are one of Europe's biggest consultancy companies in the regulation sphere, a respected partner of the chemical industry, and, for more than 130 experts from different countries, a professional home. Our passion: managing registration and approval procedures for chemicals such as agrochemicals, pesticides, biocides, etc. Our goal: to grow even further. In an international client environment. In the personal, open working culture of a family business that is focused on caring for its team. Located at the heart of the Rhine-Nahe region, alongside nature, but also right next to the vibrant Rhine-Main area. Expand our scientific expertise as

TOXICOLOGIST (M/F/D) - REGULATORY AFFAIRS

BAD KREUZNACH OR BERLIN

WHAT YOU CAN EXPECT

- Your path is taking you into a team of currently 20 people – and right into our enormous diversity of projects.
- Your mission: planning studies and preparing dossiers in close dialogue with the industry, authorities and research institutions.
- Your task: assessment of toxicological properties of chemicals and performance of human health risk assessments.
- Your focus: to obtain and defend registrations for our clients' products mainly under the EU REACH regulation but also worldwide.

WHAT WE OFFER

- Opportunities for personal development
- Intensive on-the-job training and flexible working hours
- An attractive salary with profit-sharing, bonuses and benefits (company pension plan, food allowance, etc.)
- A very good working atmosphere in a team supported by corporate events and socialising outside of work

Do you thrive on challenging projects in an interdisciplinary team of ambitious professionals? Then apply online via the link below!
